DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on 06/23/2007 is acknowledged and has been entered into the records. Applicant has cancelled claims 17-20. Claims 1-16 are currently pending in the application.

After a careful review of the amended claims, it has been determined that claims 1 and 10 have 35 USC 112 related issues that needs to be resolved, which is the subject of this office action. Any inconvenience to the applicant is sincerely regretted.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 10 contains a plurality of components/sub-systems that may be a partial list of a self-calibrating optical reflectance probe system. There is no indication how the various components/sub-systems achieve self-calibration. Appropriate correction is required.

4. Claims 2-9 and 11-16 are objected to because they are dependent on rejected base claim(s).

Allowable Subject Matter

5. Claims 1-16 would be allowable if the above 35 USC 112 rejection can be overcome.
